One major advantage of learning online is that it offers more flexibility than the traditional type. This model of learning transcends time and physical boundaries enabling the learners to choose when and where to learn. During the pandemic, for example, when schools were closed and students cooped up at home, remote learning made it possible for students to study at home, so that the risk of being infected could be minimised.

On the other hand cultivating moderate and healthy competitiveness is a generally positive development in our personal lives. It pushes us to do better and not be complacent. As a result we are challenged to conquer setbacks, become more creative when we fall short of the mark.

Challenges are opportunities to grow. Challenges that students face bravely turn out to be opportunities to achieve their full potential Every challenge they successfully confront in life serves to strengthen their will, confidence and ability to conquer future obstacles.

Last but not least, creativity is essential to the development of individuals. Those who often come up with new ideas usually turn out to achieve success more easily, while a man who always clings to old ideas can hardly create new things.

连贯

To begin with, a person with good communication skills finds it easier to put forth his ideas clearly. In this way some misunderstanding can be effectively avoided, which helps to develop better interpersonal relationships with people around him. Moreover, a good communicator is often an excellent mediator and negotiator who is skilled in resolving disputes and enhancing cooperation. Outstanding communication skills enable him to work more effectively in groups. Besides, effective communication skills are essential to developing other key life skills like problem solving and decision making, which are essential in both our personal and professional

lives.
